

*Member Testimony:*

I had my tubal ligation reversal surgery with Dr. Roberto Perez on November 16, 2002. My husband and I flew to McAllen, Texas, the night before my surgery. We set out for Rio Bravo about 6 Saturday morning. We had absolutely no problems crossing the border; we did not get stopped or anything. We had very little trouble finding the hospital. I think the total trip took us about 40 minutes from hotel to hospital. We rented our car from Dollar Rent-A-Car at the McAllen Airport; their Mexican insurance is about \$25/day. We got a great rate on a car from them online. We stayed at the Holiday Inn Express in McAllen, right by the airport; again, we got a great rate with them online. It is right by a big mall with lots of eating places.

When we got into the hospital, things were pretty busy! There were 2 other American couples there for TR surgery. Levi was very busy because they were also delivering 2 babies! I changed into a gown, and then after a bit, they came in to start my IV. A major word of advice to those of you flying--air travel dehydrates, and I was somewhat dehydrated! I had realized this after it was too late to eat or drink anything the night before. My veins are difficult to find anyway, and the dehydration made it worse! Everyone was very gentle and caring, though, and we eventually got it in. After that, we basically just waited and rested. I read and my hubby napped while we waited. The other lady had her surgery, which involved a lot of reconstruction, and at least one baby was delivered. Eventually Levi came and I was taken to surgery about 2:00.

It went as others have said...I got on the table and turned to my side to prepare for the epidural, and then Levi mercifully came and put the "knock out juice" into my IV, and I blissfully slept through the epidural and catheter being put in. After that, I woke up just as they were starting the surgery and asked for my husband, who they brought to my side. From then on, I was mostly awake. I was so glad to be awake! I felt like I did when I had my last child by c-section. I just laid there, praising God that I was even that moment being made whole again! It was wonderful to share that with my husband--a very special time. He was able to "report" to me what Dr. Perez and Levi were doing. We had even borrowed the other couple's digital camera, so my hubby kept taking pictures and then

showing them to me so I could "see" what was going on! He said that Dr. Perez and Levi worked together like clockwork--a perfect team. The anesthesiologist could not have been more kind. The surgery itself was a very joyful, happy time for me that I will always treasure.

After the surgery, I was taken back to my room, and I just rested. I never got to talk to Dr. Perez, but my husband did, and he was very impressed with him and just really liked him. Levi was as wonderful as everyone has claimed though, and very considerate and caring. My IV and catheter stayed in overnight. I would definitely recommend that those who don't know Spanish learn the words for "pain" and "medicine" for the overnight hours! Levi and Dr. Perez are of course not there overnight, and the nurses do not speak English! They could not have been more kind, though. The next day, after my IV and catheter were removed, I was able to get up and around more and more as the hours passed, and we left the hospital about 1 in the afternoon. In Rio Bravo, my husband found a great little place for Carne Asada Tacos--an outdoor stand--they were fantastic! He went looking for some good food while I was in the hospital. The hospital folks can direct you to this. We then went back to McAllen...spent about 30 minutes waiting in line to get back over the border. We again were not searched or stopped. We stayed in McAllen until Tuesday, resting up, and then flew home.

Our whole experience was wonderful. I would definitely recommend going down there to anyone, and I would do it again in a heartbeat. So far, God has blessed our family with one reversal baby, Hannah Joy, born May 26, 2004, and another special someone due to arrive around Christmas 2005!

Mike and Mindy Morriss

*Financial worry holding you back from trusting the Lord?*

Luke 12:22-32 "And he said unto his disciples, Therefore I say unto you, Take no thought for your life, what ye shall eat: neither for the body, what ye shall put on. The life is more than meat, and the body is more than raiment. Consider the ravens: for they neither sow nor reap: which neither have storehouse nor barn; and God feedeth them: how much more are ye better than the fowls? And which of you with taking thought can add to his stature one cubit? If ye then be not able to do that thing which is least, why take ye thought for the rest? Consider the lilies how they grow: they toil not, they spin not; and yet I say unto you, that Solomon in all his glory was not arrayed like one of these. If then God so clothe the grass, which is to day in the field, and to morrow is cast into the oven; how much more will he clothe you, O ye of little faith? And seek not ye what ye shall eat, or what ye shall drink, neither be ye of doubtful mind. For all these things do the nations of the world seek after: and your Father knoweth that ye have need of these things. But rather seek ye the kingdom of God: and all these things shall be added unto you. Fear not, little flock: for it is your Father's good pleasure to give you the kingdom."

*She's a child not a choice....*

*Are you Pro-life? Use birth control?*

*Did you know that some forms of birth control cause early abortions?*

We are not related to any other reversal group or ministry, nor do we have any affiliation with any specific church. We are a not 501c3 corporation.

We are an internet-hosted, Bible-based, Christian sterilization reversal ministry. We exist to support each other in our walk to trust the Lord completely with our fertility and family size. We do this through contributing financially to the current families' tubal reversal or vasectomy reversal funds.

People are here in the spirit of bearing one another's burdens. "Bear ye one another's burdens, and so fulfill the law of Christ." ~ Galatians 6:2. In doing this we are helping the awaiting families to receive funding for their reversals to restore their bodies. We accept donations in any amount, there are none too small. 100% of all donations go to fund these reversals.

We believe children are a blessing from God. Psalms 127:3 "Lo, children are an heritage of the Lord: and the fruit of the womb is his reward." We believe that using birth control is usurping God's authority in His desire for our family size. This means we support absolutely NO birth control including natural family planning.

We offer a moderated discussion list, where we encourage, support and challenge each other in fund raising for this purpose. We allow only uplifting and edifying conversation. Colossians 4:6 ~ "Let your speech be always with grace, seasoned with salt, that ye may know how ye ought to answer every man."
